Product Name :	**Product Code :**
Food Table Top Foil Stamping Machine	MACHEQ-F-M9801038

Description :

Food Table Top Foil Stamping Machine

Technical Specification :

Usage/Application   Table Top
Machine Type   Foil Stamping Machine
Frequency   20 per minute
Automation Grade   Semi-Automatic
Voltage   230 Vac
Weight   5 Kg

These coders are ideal for Semi-Automatic Coding. As soon as the product is put on the platform, coding is done automatically. The 3-line message to be printed is easily composed by pushing the Brass Stereos into the grooves & tightening them. The inking is in the form of Foil ribbon, which passes below the stereos & is advanced automatically after each print. The brass stereos are heated to a temperature of around 150 deg. C & hit the film onto the substrate thus transferring the print with embossing.

These are portable, compact and easy to install units. Simply plug the system into any electrical outlet of 230 VAC at your site to start printing.

Features:

- DC motor based very compact, lightweight and portable design
- Online model to be used as a replacement for Electro-Pneumatic coders (does not require compressor)

for Packaging Machine mounting
- Very low cost machine with low operating and inventory costs. Uses metal stereos and foil ribbon to give very clear & sharp impression which is better than pre-printed & has no drying time so no smudging
- In built speed control for automatic timed operation (settable) or can be connected to any sensor or foot switch for controlled operation
- Imported motor and accessories provide reliability & long life

Supply Voltage	230 Vac, 110 W
Printing Area	3 lines of 16 char.
Printing Speed	Max. 90 prints/min.
Prints using	Easily Changeable Copper / Brass stereos
Printing Medium	Replaceable Foil Ribbon roll (Black, Red, White, Golden, etc.)
Impressions	Appx. 5000 impressions per 400 ft. roll of 25 to 35 mm width.
Weight	11 Kgs
Dimensions mm.	215L 156W 235H
