Product Name : Dent Pullers	**Product Code :** MACHEQ-A-M11701001

Description :

Dent Pullers

Technical Specification :

Input Voltage	220V / 380V
Input Power	22kVA
Input Cureent	58A
Welding Thickness	0.8+1.2mm

Super Configuration:

Easy moving & operating esthetical design high power output functions such as vertical pulling , heating / contract sheet plate, spot weding, stud, platecutting, meson, flatten etc.

Achieve the best welding result by micro processorcontrol, advanced digital control tec, and special personalize design due to choose the suitable welding strength.

Voltage monitor automatically.

Over heat protection.

Adopt curve silicon steel chip and relay.

Adopt precise time adjudtment sysyem.

Various dismantling the vehicle, it is the most ideal and necessary equipment for auto maintenance.
