**Product Name :**  
Vacuum Cleaner Spray Extraction

**Product Code :**  
MACHEQ-A-M10701002

**Description :**

Vacuum Cleaner Spray Extraction

**Technical Specification :**

|                    |              |
|--------------------|--------------|
| Capacity           | 50           |
| Condition          | New          |
| Motor              | 3            |
| Voltage            | 230V         |
| Weight             | 25 kg        |
| Noise level        | 60 dba       |
| Motor              | turbine type |
| Tank Volume (L)    | 50           |
| Phase              | Single Phase |
| Container Capacity | 80 Ltr       |
| Trolley            | Yes          |
| Vacuum             | 230 mbar     |
| Max Power Rating   | 2650W        |

Spray extraction unit are basically vacuum cleaners with chemical sprayers , unlike steam vacuum cleaner these machines sprays the chemical and suck it simultaneously.
