Product Name :
Garage Workshop Spot Welding Dent Pulling System

Product Code :
MACHEQ-G-M4901003

Description :

Garage Workshop Spot Welding Dent Pulling System

Technical Specification :

Easy moving and operating; esthetical design; high power output; functions such as vertical pulling, heating/contract sheet plate, spot welding, stud, plate cutting, meson, flatten etc.

Achieve the best welding result by micro processor control, advanced digital control tech, and special personalize design due to choose the suitable welding strength.

Features:

Without dismantling the vehicle.it is the most ideal and necessary equipment for auto maintenance.

- Voltage monitor automatically.
- Over-heat protection.
- Adopt curve silicon steel chip and relay
- Adopt precise time adjustment system.
- Various pulling power devices and different welding torches.
-

Input Voltage	220V/380V
Input Power	22kVA
Input Current	58A
Outpur Voltage	6-12V

Welding Thickness	0.8+1.2mm
Duty Cycle	35%
Dimension	600x470x960 mm
Weight	68 kg

Machines Equipments Manufacturers
