Product Name :
Garage Workshop Nitrogen Inflators For Tyres

Product Code :
MACHEQ-G-M4901006

Description :

Garage Workshop Nitrogen Inflators For Tyres

Technical Specification :

Nitrogen has been the choice for maintaining a consistent pressure in the tires. Our nitrogen gas generator, is an ideal addition to the automotive or tire shop as it is compact, uses minimal shop space, runs quiet and can be easily mounted. The system creates its own pure N2 from the air using an internal nitrogen generator and tire nitrogen generator and makes the gas readily available for tire filling on demand. Our nitrogen generators are equipped with an Automatic shut - off function.

Features:

- 92% to 95% Pure Nitrogen Output
- Instant Nitrogen Output No Waiting
- Analog Filling Gun provided with the machine
- Air IN Pressure Gauge
- N2 OUT Pressure Gauge
- Working Range 20 psi to 150 psi
- Suitable for all types of Vehicle
- Industrial grade quality hoses and fittings
- Auto Shut Off when not in use
- Smallest in size & Fastest in Nitrogen filling
- For cars, bikes, LCV, HCV

Benefits to Vehicle:

-
- Fuel saving up-to 10%
 - Smooth Handling
 - More Tyre Life
 - Less Pressure Loss
 - Enhanced Performances
 - Smoother vibration free ride

Weight	60kg
Switches	Rocker
Power Source	220V AC
Height	4ft
Width	12 Inch
Timer	12 Inch
Pressure Control	Automatic
Pressure Gauge	0-105 psi
Air Input	Minimum 60 psi
