Product Name :
Agricultural Rotary Grain Classifier Separator

Product Code :
MACHEQ-A-M5801005

Description :

Agricultural Rotary Grain Classifier Separator

Technical Specification :

Rotary Grain Separator is suitable for pre cleaning, fine cleaning of all types of grain, cereals, pulses, legumes and seeds. The Rotary Grain Separator is offered in double deck type construction. The Rotary Grain Separator is equipped with rubber ball self cleaning system. Double Deck Rotary Grain Separator ensures that there is no blockage of material in the sieve perforation. It works on rotary motion with the help of motor and v-belt at the bottom.

Features of Rotary Grain Classifier Separator Machine:

- suitable for pre cleaning, fine cleaning of all types of grain, cereals etc.
- Double deck system
- Low maintenance.
- Ensures that there is no blockage of material in the sieve perforation.

2900x1580x1520 mm	1.5 KW	-	10 TPH	2500x1200 (L X W) mm
2900x1850x1520 mm	1.5 KW	-	15 TPH	2500x1500 (L X W) mm
2900x2150x1520 mm	2.2 KW	-	20 TPH	2500x1800 (L X W) mm
