**Product Name :**  
Army Flood Light

**Product Code :**  
MACHEQ-A-M1901017

**Description :**

Army Flood Light

**Technical Specification :**

- Flood Light
- Mounting Platform with Tripod Mast
- Power source slient Generator

**Flood Light**

- Front Diameter 100mm
- Bulb Type:HID(High Intensity Discharge)
- Luminous Flux:3200~5300 Lumen
- Lamp Life:2500 Hrs
- Color Temperature:4250O??k
- Power:12VDC
- Water Resistance:50 meter IP65
- Working temperature:-20??C up to +??C
- Surface treatment:Hard anodizing MIL-A-8625
- Indentification of moving object1000m
- Glass:Hardened Impact and and temperature variant resistant
- IR Filter:850nm ability to see 800m using night vision device.
- Weight of flood light 2kg

---

#### Mounting Platform with tripod mast

- The mountable platform with tripod mast able to raise the flood light up to 8 meters
- movement of Flood Light  
PAN:0°360° and TILT:0°60°
- Payload to withstand a wind pressure of 50m/s
- Payload capacity 25kg
