Product Name :
Army Handheld Videoscope

Product Code :
MACHEQ-A-M1901018

Description :

Army Handheld Videoscope

Technical Specification :

- Compact & light weight 700 gms
 - Palm size ergonomic design
 - Joy stick based icon controller
 - Quick precise scope 4 way articulation
 - With stand drop & fall as per international standard, IEC-61001
 - Rugged design for reliable operation in harsh environments
 - Extra bright illumination with versatile optical adaptors
 - Proven stereo measurement
 - Insertion tube resists crushing and abrasion
- With its durable design and improved performance that allows it to be used in diverse environments, the IPLEX UltraLite is the industry's choice in handheld remote visual inspections. Surprisingly compact and lightweight
- The IPLEX UltraLite weighs only 700 g (1.5 lb) with its lithium-ion battery. This easy-to-use videoscope is so small and light that it is the perfect companion for the inspector who works in areas with limited access or in cramped spaces or has to navigate narrow stair cases and steep ladders
