Product Name :
Army Mine Detector

Product Code :
MACHEQ-A-M1901029

Description :

Army Mine Detector

Technical Specification :

- Effective detection of magnetic, nonmagnetic
- and stainless-steel metal masses
- Accurate pinpointing of the target's position
- using a bitonal system and acoustic
- modulation proportional to the dimensions of the detected mass
- High discrimination capability for adjacent
- metal masses
- Compensation for mineralized and high
- natural metal content soils
- Static and dynamic detection independent
- of the speed of transit of the detector head
- Very long-lasting battery charge
- Light, ergonomic detection head designed
- for continuous use
- Extremely high level of electrical and
- mechanical Reliability
- Operation monitored by a microcomputercontrolled
- autodiagnostic system
- Completely digital electronics, with in-the-field

-
- program memory upgrade capability
 - Ease of use with minimum training time
 - Thanks to many years of in-depth research in the field of Metal
 - Detection by DRDO has established itself as a primary international
 - manufacturer of high-performance Ground Search Metal Detectors

Thanks to many years of in-depth research in the field of Metal Detection by DRDO has established itself as a primary international manufacturer of high-performance Ground Search Metal Detectors

LEADER IN PERFORMANCE AND RELIABILITY

The KY1-MD is a portable, high-sensitivity Metal Detector designed to detect magnetic and non-magnetic metals in all soils, including laterite and magnetite. The Metal Detector comprises a detection head, a telescopic handle, an electronics unit, a canvas carry-bag and a High Impact Polypropylene Case
