Product Name :
Sewage Treatment Plant

Product Code :
MACHEQ-W-M13701001

Description :

Sewage Treatment Plant

Technical Specification :

Clarifier

Clariflocculators

Effluent Treatment Systems

Water Pollution Control Systems

Waste Treatment Plants

Preliminary Treatment: Removal of coarse solids and other large materials found in raw wastewater

Primary Treatment: Removal of settle-able organic and inorganic solids by sedimentation, and the removal of float-able materials by skimming

Secondary Treatment: Removal of residual organics and suspended solids

Optimum performance

Durable finish

Compact design
