Description :

Army General Service Kit

Technical Specification :

The GS Kit is a comprehensive rigging kit for maximum tactical versatility. Combines multiple access and disposal capabilities in a single highly effective kit.

A complete 2-line rigging kit for EOD/IEDD tasks and scenarios

- Over 100 Components.
- Over 30 different component types
- Two color coded high strength low stretch Kevlar core lines
- High strength heat-treated hooks
- Telescopic pole (3M/10ft)
- Self-opening snatch block pulley
- Adjustable double suction anchor
- Available in soft case, rigid case or disposable cardboard
- Lifetime limited warranty

Easily achieves the 5 basic functions of a proper EOD/IEDD rigging kit: Reach, Attach, Anchor, Move and Manipulate.

An excellent stand-alone kit, the GS provides the core capability of the full HAL rigging system.
