

**Product Name :**  
Pasta Extruder Machine

**Product Code :**  
MACHEQ-F-M3101003

**Description :**

Pasta Extruder Machine

**Technical Specification :**

Machine Type: Automatic  
Material: Stainless Steel  
Output: 80-100 kg/h  
Main Motor Power: 20 HP  
Voltage: 230 V

Continues cooking food extruder  
Specially design with main bearing housing fitted with bearing  
The main structure is made by mild steel tube frame with feeding screw  
Screw and barrels and made of alloy steel die head bolts and nuts are of high tension  
All standard fitting.
