Product Name :
Garage Videographic Wheel Balancer

Product Code :
MACHEQ-G-M4911002

Description :

Garage Videographic Wheel Balancer

Technical Specification :

3D program: Automatically data input for Value B, D and L.
Static and dynamic adjusting program.
Multi ALU adjusting mode.
OPT program: enhance the coordinating of tyre and rim.
SPO program: to isolate the balance weight and hide behind the spokes in a non-visible position.
Store information for various wheel size.
Programming upgraded by USB port.
Voltage: 220V
Rim Size: 10-30"
Tyre Width: 800mm
Clamping Capacity: 01/05/20
Motor Power: 0.25kw
Rim Center Hole Die: Less than 145 mm
Measuring Time: 7s
Balancing speed: 180rpm
Balancing accuracy: ± 1 kg
