Product Name :
Garage Four Post Lift

Product Code :
MACHEQ-G-M4921005

Description :

Garage Four Post Lift

Technical Specification :

Outstanding 4 post lift, gathering with the preferences shape the lift produced.

Polished configuration, two-layer hided structure whose limit is great.

It actualizes new safe lifting innovation of the world as one, included, electrical control and mechanical control. Adjustable position for the turntable of front wheel, and extended sliding plate for back wheel which could fulfill the auto with long or short hub.

It is furnished with an optional lifting jack, its lifting limit is 3T.

It has finished CE Test.

Enormous Pulley for steel rope.

Height limit switch.

Safety valve for anti-explosion of hydraulic system.

Outfitted with principle protection and rope break.

Protection on every column.

Manual Lock Release (Optional Pneumatic Lock Release).

Main Features:

Outstanding 4 post lift, gathering with the preferences shape the lift

Polished configuration, two-layer hided structure whose limit is great.

It actualizes new safe lifting innovation of the world as one, included, electrical control and mechanical control. Adjustable position for the turntable of front wheel, and extended sliding plate for back wheel which could fulfill the auto with long or short hub.

It is furnished with an optional lifting jack, its lifting limit is 3T.

It has finished CE Test.
