

Product Name :
Garage Battery Booster

Product Code :
MACHEQ-G-M4961003

Description :

Garage Battery Booster

Technical Specification :

Battery Booster can be utilized as quick battery Charger. fast Battery Booster, offered by us, has an uncompromising caster wheel alongside Heavy obligation battery terminal for 12V-24V-36V-48V-60V-72V. Additionally, Quick Battery Booster that we provide has a Digital Voltmeter to battery Voltage Testing. Preset timer provided for selecting Battery Boosting Time Advanced Ammeter with selector Switch for setting Charging/Boosting Current Uncompromising Toggle Switches can Charge up to 200AH battery On Line charging and no compelling reason to pull battery from Vehicle.

Selectable voltage: 12V-24V-36V-48V-60V-72V
Current: 0 – 10 Amp
