

Product Name :
Garage Diesel Smoke Meter

Product Code :
MACHEQ-G-M4991002

Description :

Garage Diesel Smoke Meter

Technical Specification :

Splitting structure, measurement and control unit, helpful and straightforward
Opacity and absorption coefficient, straightforward activity
LCD enormous screen display
Free acceleration experiments and embraces the transient measurement function, and programmed preparing of test information and show measurements
Preheating 15 minutes and auto-focusing
Test unit embraces shunt procedure, test the diesel smoke level. Utilizing "air drapery" method to secure optical system against pollution
RS232 interface, advantageous systems administration.
Gas temperature and engine speed optional configuration.
Measurement range: Dark lighting N:0-99.9%
Optical absorption coefficient K: 0-16.00m-1
Resolution: Opacity N: 0.1% Coefficient of light absorption K:0.01m-1
Indication Error: Opacity N: $\pm 2.0\%$ (absolute error)
Power: AC 220V; 50HZ
Weight: Test unit: 13.5Kg Control unit: 6kg
Volume: control unit: 610*500*330 mm Test unit: 500*300*330 mm
Preheating time: 10 minutes
