

Product Name :
Thresher with Diesel Corn Sheller Machine

Product Code :
MACHEQ-A-M5361001

Description :

Thresher with Diesel Corn Sheller Machine

Technical Specification :

Peeling and threshing productivity reaches 500-5000kg/h.

Three-point suspension system to connect the power source of four wheels tractor.

Peeling and threshing at the same time, no hurts to niblets.

Matching fuel engine and electric motor power source, optional rubber tires, suitable for livestock traction transportation.

|---------------------|-----------------------|--------------|
| Packing size(mm) | 1100×700×750 | 1100×800×850 |
| Threshing rate (%) | ≥98 | ≥98 |
| Breakage rate (%) | ≤1 | ≤1 |
| Power(HP) | 12-15 (diesel engine) | 15-20 |
| Productivity (kg/h) | ≥5000 | ≥6500 |
| Shaft speed (r/min) | 1200±50 | 1200±50 |
| Overall weight (kg) | 330 | 130 |
