Product Name :
High Efficient Small Palm Oil Extractor Machine

Product Code :
MACHEQ-A-M5371002

Description :

High Efficient Small Palm Oil Extractor Machine

Technical Specification :

Palm oil press is an efficient palm fruit oiling equipment the extraction of oil from palm fruit. It is suitable for pressing and obtain crude oil from heated and crushed palm fruit billets. It has the advantage of low core crushing rate, high extraction performance, no special moisture content requirements on raw material, excellent manufacturing process, compact structure, large output, stable operation, easy maintenance and long durability. At present, palm oil press has been widely used by many palm oil producing countries.

Item	Capacity(t/d)	Motor(kW)	Weight(kg)	Dimension(mm)
Single Screw	0.5	4	260	2200× 1500× 1600
Double Screw	1	5.5	1340	2280× 910× 600
Single Screw	2	7.5	1200	2690× 500× 1100
Double Screw	3	7.5	2800	2850× 950× 650
Double Screw	5-7	11	3400	3940× 1600× 850
Double Screw	10-12	22	4100	4650× 1600× 950
Double Screw	15-17	30	4800	4760× 1600× 1100
Double Screw	20-23	37	5600	4850× 1800× 1200
