Product Name :
Automobile Brake Shoe Grinding Machine

Product Code :
MACHEQ-A-M3511001

Description :

Automobile Brake Shoe Grinding Machine

Technical Specification :

Automobile Brake Shoe Grinding Machine applicable for Jiefang, Dongfeng and Sitaier large trucks and can grind reasonably brake shoe and brake drum when arc radius of brake shoe is not in accordance with brake drum because brake shoe is replaced and brake drum is worn and bored to achieve ideal braking effect. This equipment has convenient operation and wide scope of application and width of grinding brake shoe is up to 280mm. So it is ideal maintenance equipment in automobile maintenance industry.

Motor power: 1.5KW

Grinding Wheel RPM: 3000r/min

Max. Grinding Width: 280mm
