

**Product Name :**  
3D Wheel Alignment

**Product Code :**  
MACHEQ-A-M3521002

**Description :**

3D Wheel Alignment

**Technical Specification :**

3D digital image four-wheel positioning device, using the world's most advanced four-wheel positioning technology, is the world's most advanced four-wheel positioning device.

Measurement functions:

Four wheel alignment,two wheel alignment,single wheel measurement,lift measurement,camber,caster.KPI,toe,Setback,thrust angle,straighten steering wheel,toe lock adjustment,toe curve adjustment,max.turning angle measurement,axis offset measurement,wheel offset measurement.

Measurement Items	Toe	Cambe r	Caste r	KPI	Setbac k	Thrust Angle	Wheel base	Tread
Accuracy	±2?	±3?	±3?	±3?	±2?	±2?	±3?	±5m m
Measurement Range	±20 °	±10°	±20°	±20 °	±9°	±9°	/	/
