Product Name :
Wheel Repair CNC Lathe

Product Code :
MACHEQ-A-M3521003

Description :

Wheel Repair CNC Lathe

Technical Specification :

Probe alloy wheel profile, transformation G code
Diamond cut the wheel.
Standard Configuration :
Manual 3-Jaw Chuck
Manual Quick Change Toolpost ,4-station turret
CNC controller
With probing system
Diamond Cutter 1 set
Full Enclose(Security Guard Door)
Specific Digital Optimization Software
Training Video /Tool Box
Work Lighting System
Cooling system,
Automatic lubrication system

Max.process diameter of wheel	22 inch	26 inch	30inch
Chuck diameter	250mm	320mm	320mm
Spindle speed	50-2500rpm	50-2000rpm	50-1800rpm
Cutting speed	0.1-1000mm/min	0.1-1000mm/min	0.1-1000mm/min

Spindle bore	60mm	60mm	82mm
Taper of spindle bore	MT6	MT6	1:20/ ? 90
Tool post	Manual 4 position tool post	Manual 4 position tool post	Manual 4 position tool post
Section of tool post	25x25mm	25×25mm	25×25mm
Spindle speed control	Automatic		
Min. setting unit of motor	(Z) long 0.001mm, (X) cross 0.001mm		
Moving speed of post	(Z) long 8m/min,(X) cross 4m/min		
Accuracy	0.015mm		
Repeatability	0.012mm		
Main motor power	5.5KW	7.5KW	11KW
