Product Name :
Brake Drum Disc Cutting Machine

Product Code :
MACHEQ-A-M3551001

Description :

Brake Drum Disc Cutting Machine

Technical Specification :

Replacement adapter" system eliminates the need for traditional bell clips and cones.
Continuously variable spindle and cross feed speed set for fast rough and fine finishing.
Precision double cutter and fast drum to rotor conversion help improve your service capability.
Dc motor designed to meet the requirements of industrial motion control.
Positive rake cutter tip angle provides for a one pass finish virtually every time,allowing you to complete your work fast.

Spindle Travel: 175mm

Spindle Speed: 70, 80, 118rpm

Spindle Feed Speed: Min 0.05mm/rev

Max 0.5mm/rev: Max 0.5mm/rev

Cross Feed Speed: Min 0.05mm/rev

Max 0.5mm/rev: Max 0.25mm/rev

Handwheel Graduations: 0.05mm

Rotor Diameter: 180-381mm

Rotor Thickness: 48mm

rum Diameter: 152-711mm

Drum Depth: 175mm

Motor: 1PH 110V/220V 50/60HZ , 3PH 380V 50/60HZ
