Product Name :
Auto Workshop Computerized Wheel Aligner

Product Code :
MACHEQ-A-M3501001

Description :

Auto Workshop Computerized Wheel Aligner

Technical Specification :

Type Fully Automatic
Type Of Vehicle Cars
Usage/Application WHEEL ALIGNMENT
Ambient Temperature -20 Degree C ~ + 50 Degree CC
Relative Humidity Less than 90%
Wheel Clamps 24 Inch
Rim Diameter 10-24"
Communication Mode RF Wireless Communication

Computerized Wheel Aligners:

Wheel aligner is stable, accurate, low cost, and easy-to-maintain 8 CCO wheel aligner, specially designed for clients who need to expand their business. With featured ZigBee wireless data transfer technology, more Stable and advanced than Bluetooth or 433MHz RF equipped wheel aligners.

Features:

- Smart key LCD display Real-time toe-in, camber display Level indicator
- Battery percentage display
- Battery status indicator
- Low battery warning light

Radio signal status indicator
3600line CCD, 8beam CCD infrared optical sensor's with the highest precision
Sensors
Adjustment indicator on the sensor head
Calibration value back up in sensor head
Modularized structure, Components replaceable without calibration. Zigbee wireless communication
