Product Name :
Auto Workshop Portable Low Rise Lift

Product Code :
MACHEQ-A-M3501005

Description :

Auto Workshop Portable Low Rise Lift

Technical Specification :

Our domain expertise have enabled us to offer a precision engineered range of Portable Low Rise Lift. These machines are used to lift cars, vans and light-duty trucks. These lifts have dual cylinders and scissor lift design, which ensures maximum stability and strength. Owing to their portability, these lifts are widely demanded by the customers. Following are the various features of the product:

- Ideal for tyre, wheel and brake related repairs, collision repair work and new car preparation
- 5 position mechanical safety lock system
- Portable trolley supports pump and moves lift
- Easily adjustable sliding radius arms
- Engagement release mode: Automatic mechanical release by novel trip-over mechanism at the highest position

Maximum Load(tons)	4-6
Application	Servicing
Maximum Rise(m)	0-5
After Sales Service	Provided
Max Lifting Weight	4 ton
Power Source	single phase
Lifting Height	4.75 feet
Power Of Motor	2kw
Body Material	steel

Capacity	4000kg
Min Height	118 mm
Max Lifting Height	1152 mm
Max Lifting Height With Adapters	1260 mm
Overall Length	2230 mm
Overall Width	1018 mm
Lifting Time	35 Sec
Lowering Time	25 Sec
