Product Name :
Auto Workshop Steam Vacuum Cleaner

Product Code :
MACHEQ-A-M3501033

Description :

Auto Workshop Steam Vacuum Cleaner

Technical Specification :

Air Aromatization Yes
Voltage (V) 230
Weight (kg) 20kg
Automation Grade Automatic
Boiler Capacity (L) 2
Pressure (Bar) 5
Condition New
Boiler Pressure (bar) 5
Tank Capacity (l) 2
Boiler Temperature (deg. Celsius) 190
Frequency (Hz) 50
Temperature (deg. Celsius) 2150
Cleaning Type Steam
Boiler Power (W) 3kw
Number Of Wheels 4
Cable Length (m) 5
Power Source Electric
Color Silver
Temperature 148 Degree C

Weight 9 kg
Power 1400W

steam Vacuum cleaner is a professional steam generator and generates a pressure of 5 bar of steam in continuous fashion. this steam cleaner generates steam at 150deg centigrade. the machine also has a feature of Vacuum with heavy duty Vacuum motor which can be used with water curtain as a filter where all the dust can be collected. so you can actually steam and Vacuum at the same time with the help of different adapters provided with machine.
