Product Name :
Auto Workshop Truck Digital Wheel Balancer

Product Code :
MACHEQ-A-M3501035

Description :

Auto Workshop Truck Digital Wheel Balancer

Technical Specification :

Max Wheel Diameter 1280 mm
Rim Sizes 12" to 24"
Rim Width 3" To 20"
Balancing Speed 210 rpm
Accuracy 1gm for car Tyre 25gm for Truck Tyre
Power Supply 380v/50Hz, 3ph
Shipping Weight 385 kg

Truck wheel balancer

Balancing is a very very important for a automobile running on tyres.

As the tyre are prepared there is always some grams of difference in the circumference of the tyre which needs to be compensated or the tyre will start wobbling and there will be a tyre wear and tear.
