Product Name :
Food Turntable Inspection Machine

Product Code :
MACHEQ-F-M9601057

Description :

Food Turntable Inspection Machine

Technical Specification :

Available Turn Tables Diameter 24, 30, 36 and 42

Frame Shape Square

Frame Material Stainless Steel

Usage Cooling conveyor

The Turntable Machine features stainless steel scrambler and unscramble support. Besides, it has SS Square frame support that makes it last long.

Complete Synchronization:

- The turn tables are specifically used to rotate products on the conveyor lines around horizontal axis. We manufacture turn tables in various diameter and height. In addition, we also offer customized ones as per the requirements of our customers.
- We make sure the machine has complete synchronization, easy flow of container and most importantly; rotate at 90 degree in order to perfectly suit different machines and purpose.

Three Step- Pulley:

The turn table comes with three-step pulley in order to get along with different speed and be suitable with many types of containers. Moreover, it also features VFD (variable frequency drive) for smooth speed variation.
